

To Dr Diana from Ally B

Dr Diana

You are the brightest star; by far.....
in the medical galaxy of our 'prettyill' reality,
you bring hope and optimism for our compromised vitality.
With a tenacity like 'Tigger' when it comes to research rigor,
You're a detective, so effective, on the trail of our lost vigor.
Your passion and compassion clearly shows 'you have been there!'
It's not driven by an ego; no..... it is driven by your care.
Sincere and spoonelicious;; you really comprehend
I feel I'm 'prettyhonored' you considered me your friend.
The ocean may be big but I know just where you are,
In the darkness of our night, you're the brightest star; by far.
